

Support Worker

This two-day training is designed to give support workers and those who work in community services an understanding of the support role and the principles of customer-focussed care in people's homes and in the community.

These sessions build understanding of the disability sector, with a strong focus on developing good teamwork and communications skills. Learn about common medical conditions and how to support people to take medications. We also explore strategies to build bridges into community, and how to create safe spaces for people in and outside the home.

What does this training cover?

- Disability Core Skills and Knowledge
- Teamwork & Communications
- How to Provide Individualised Support
- How to Support Independence & Wellbeing
- Following Safe Work Practices
- Person-Centred Behaviour Supports
- Supporting Community Participation and Social Inclusion
- Working Legally and Ethically
- Supporting People to take Medications
- Supporting Different Conditions Including Autism, ABI, Diabetes, Epilepsy and Dementia

Who is this training for?

- Disability support workers who want to brush up on current skills
- Those working or hoping to work in the disability sector
- People who work in community services who need to understand the complexity of the support worker role to better perform their own roles (e.g. administrators, HR officers, on-call/rostering staff etc.)
